

HANDS ON SEMINARS FROM THE PROS!

New to the BC Boat & Sportsmen's Show - Take in a seminar from the Pros' Chan, Morrison & Rowley for only \$50.00 (includes entrance to the show)!

Friday, March 4, 2011 – 11am

Seminar F1 - Chironomid Workshop by Brian Chan This 2 hour seminar will cover all aspects of this very effective Chironomids technique. Topics covered include the life cycle, where the chironomids live, larval, pupal and adult fishing tactics, choosing the right patterns, equipment selection and boat setup. This seminar will appeal to both beginner and intermediate level anglers who want to master the art of fishing these bugs!!

Seminar F2 – Saltwater Fly Fishing with Peter Morrison

This 2-hour seminar is an in-depth yet light hearted approach to Salt Water Fly Fishing for Salmon. The focus will be on the methods and techniques employed when Fly Fishing in Open Ocean situations. Fly pattern samples and various support materials available at the Seminar.

Saturday, March 5th, 2011 - 8:00am

Seminar S1 – Stillwater Presentation with Phil Rowley

Join Phil for a 2-hour Seminar as he talks to you about his theories on Stillwater angling. This comprehensive seminar guides you through an understanding of trout behaviour, entomology and associated fly patterns, your role as a Stillwater angler and how to read and understand lakes.

Seminar F2 – Saltwater Fly Fishing with Peter Morrison

This 2-hour seminar is an in-depth yet light hearted approach to Salt Water Fly Fishing for Salmon. The focus will be on the methods and techniques employed when Fly Fishing in Open Ocean situations. Fly pattern samples and various support materials available at the Seminar.

Sunday, March 6th, 2011 - 9:00am

Seminar SU1 - Chironomid Workshop by Brian Chan

This 2 hour seminar will cover all aspects of this very effective Chironomids technique. Topics covered include the life cycle, where the chironomids live, larval, pupal and adult fishing tactics, choosing the right patterns, equipment selection and boat setup. This seminar will appeal to both beginner and intermediate level anglers who want to master the art of fishing these bugs!!

Seminar SU2 - Terminal Solutions with Phil Rowley

The link between fly and fly line is arguably the most important equipment consideration yet most fly fishers tend to take it for granted. In this 'hands on' seminar Phil will introduce you to his leader and tippet systems for both sinking and floating line presentations. Students will be taught Phil's favourite knots and leader formulas for strike indicators, long leader or 'naked' presentation, and short line sinking line leaders. Students will also learn which knots to use and when and the reasons why. Knots include the Nail, Blood, Triple surgeons, Perfection Loop, Improved Clinch and the Non-Slip Loop. All leader, tippet and knot tying tools will be provided.

Registration is Limited!
